Bio Data

Gender: Male

Date of Birth: 19th Dec, 2002

Nationality: Kenyan

Personal Profile

I am a dedicated and driven Software Developer with hands-on experience in building scalable web and mobile applications, integrating secure APIs, managing computer systems, and supporting digital transformation across world environments. My journey has shaped me into a results-oriented professional skilled in problem-solving, system optimization, and delivering user-focused solutions. I combine strong technical expertise with disciplined project execution, ensuring every system I develop aligns with organizational standards, security principles, and quality outcomes. I am committed to contributing to a forward-thinking tech team where innovation, efficiency, and continuous growth are key.

Work Experience

May, 2025 – Present	Onfrey Limited
---------------------	----------------

May, 2025 – Present	Onfrey Limited
---------------------	----------------

Position: Software Developer

- Full-Stack Development using Angular, React, Django, and Flutter for web and mobile applications.

- Front-End Development by building responsive and user-friendly interfaces.
- Back-End Development by implementing server-side logic, RESTful APIs, and microservices.
- API Integration by connecting third-party services like payment gateways and CRM systems.
- Database Management including design, optimization, and maintenance of MySQL, PostgreSQL, SQLite, and MongoDB.
- System Testing and Quality Assurance to ensure performance, security, and cross-device/browser compatibility.
- Website and Application Maintenance including updates, bug fixes, backups, and security patches.
- Mobile App Development for Android and iOS with features like push notifications and offline mode.
- Version Control and Collaboration using Git/GitHub and Agile workflows.
- Server Management and Automation for Linux environments to maintain stability and security.

May - 2023

Health IT - System Testing and Data Entry

Kapkatet Lvl 5 Hospital

Responsibilities:

- Selected by the Ministry of Health (Kenya) to support the rollout of the tiBERbu Healthcare System.
- Configured the system and ensured accurate entry of drug and service data across multiple healthcare facilities.
- Assisted healthcare staff in adopting and navigating the new digital platform.
- Conducted system testing and maintained data accuracy to support smooth operations.
- Applied technical problem-solving skills to address issues and optimize system performance.
- Collaborated effectively with cross-functional teams to ensure successful implementation.
- Gained practical experience in health informatics and digital transformation in healthcare settings.
- Attachment – ICT and Design Studio Intern

May - July, 2024

Rivatex East Africa Limited

Attachment

Responsibilities:

- Set up and maintained networking and IT systems to keep daily operations running smoothly.
- Assisted with system analysis and supported web development projects for internal tools.
- Worked with industrial machines in spinning, weaving, and engineering departments, combining technical knowledge with hands-on operations.
- Helped troubleshoot software and hardware issues to reduce downtime and keep processes efficient.
- Collaborated with different teams to improve workflows and make systems easier to use.
- Kept clear records of IT systems, network setups, and operational procedures to help the team stay organized.
- Supported data collection and reporting to help identify areas for improvement.

March, 2024 – November,

Freelance Software

Position: Web and Android mobile app development

- Collaborating with customers to identify end-user requirements and specifications
- Designing algorithms and flowcharts to create new software programs and systems Producing efficient and elegant code based on requirements
- Testing and deploying programs and applications
- Troubleshooting, debugging, maintaining and improving existing software
- Compiling and assessing user feedback to improve software performance

Programming Languages & Tools

Languages

- HTML
- CSS
- PHP
- JavaScript
- React Js
- Flutter
- Angular
- Django
- TypeScript

Tools

- Sublime Text
- GitHub
- Click Up
- Visual Studio Code
- Figma
- Android Studio
- Wordpress
- Postman

Skills

- **Creative Problem Solving:** Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
- **Self-driven Work Ethic:** A self-starter who likes to take initiative and seeing things through to completion. **Great Communication Skills:** Excellent verbal and written communication skills.
- **Systems Evaluation:** Identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system.
